Office Action Summary

Art Unit 1756

1. This Office action is responsive to the Information Disclosure Statement (Paper No. 7) filed March 7, 2003 and the Request for Reconsideration (Paper No. 3) filed May 9, 2003.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-32 are rejected under 35 U.S.C. § 102(b) as being anticipated by Garza et al.

The discussion in the remarks of the amendment explaining why the scope of the protection sought is patentable over the applied prior art of record has been carefully considered but is not deemed to be persuasive for the reasons of record as set forth in paragraph 4 of the last Office action in combination with the following remarks.

Applicant's arguments are drawn specifically to the fact that the teachings of Garza et al. are for correcting reflective notching. There is a discussion of what reflective notching is at page 4 of the response. It is then asserted that the teachings of Garza et al. are drawn to using mask biasing to compensate for critical dimension variations caused by optical proximity effects, and not for correcting flare-induced critical dimension variations. It is also stated that there is no discussion of flare correction in the reference. The Examiner agrees that there is no discussion of "flare" correction in the reference, however, flare induced changes are also referred to as

Art Unit 1756

back scattering of light changes. Reflective notching issues that require optical proximity correction can be caused by the back scattering of light (flare). Furthermore, a careful review of claim 1 of the instant application states that mask biasing is used to largely eliminate the critical dimension changes caused by flare and its variations. This is a very broad scope in the claim and a variation of flare could also be considered reflective notching issues as set forth by Garza et al.

In view of these comments and the non-amended scope of the claims as currently presented, the 35 U.S.C. § 102 rejection is maintained. The Examiner again specifically points out column 12, line 5 - column 14, line 31 of Garza et al.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE

ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
